Theme Lines:

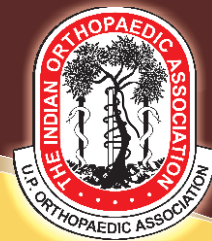

“Updating Knowledge through Innovations and skills”

Thank you for allowing me to serve you as the President of our association. I truly appreciate your trust and confidence in me.

Since the foundation of UPOA in 1977, members have rapidly increased and the UPOA has since emerged as India's largest and most prestigious orthopaedic association. The growth has been not only in the number of members but also the quality being delivered to the patients through the use of newer researches and advancements of technology. Technology has become the crux for the success of any person in our field. Only names do not sell any more. The benefits to the patients are huge in the terms of better diagnosis and recovery. Each year this momentous event has attracted global leaders to participate in to exchange expertise and launch brilliant new ideas together.

And for us it is a challenge to stay updated with the newer techniques, be aware of the technical know-how of the equipments. The outcomes of the researches being conducted in developed countries and the technological innovations to produce quality work should be accepted and followed by us also.

The 38th Annual Conference of UP Orthopaedic Association at Jim Corbett Park Region, Uttarakhand in February was very successful indeed. There were great educational sessions. Thanks to the Conference team for all they did in preparing for the conference. I know that a lot of work goes on back stage to make the conference a success. I received very positive feedback on the conference. Thanks to the Program and organizing team, the Central Office staff, and the onsite volunteers whose participations made this a great experience.

Secretary's Message

Dear members

Greetings from the UPOA

With a sense of deep gratitude and satisfaction I once again wish you a very happy, healthy and prosperous new year 2014.

With 19 academic activities (including the mega event IOACON 2013) we earned 65 MCI accreditation hours and ratified 102 new members taking our current membership to 1523. Being the largest association of the IOA we have a huge responsibility. United we can achieve any goal set by our association.

Our representation in the academic activities and the executive of the IOA has been exemplary and our members have earned laurels at international and national level and brought pride to our association. I congratulate them all.

We intend to celebrate bone and joint day on 4th August in a big way by organizing free check up & bone densitometry camps and public awareness programmes etc and performing free surgeries for the needy and poor. I appeal to all city clubs and members to actively participate in the same and contribute towards the society.

Last but not the least, I request all of you to participate and contribute in the scientific presentations and publications of our esteemed association and convert all orthopaedic surgeons who are non members in your vicinity into members of the UPOA and IOA as well.

Remember strength is directly proportional to unity and number...!

RTI on Menace of Physiotherapists

An RTI was posted on 26/05/2014, under registered cover, asking a few below mentioned questions against the use of title "Doctor" by the physiotherapists and thereby prescribing treatment, investigations etc which is completely unethical. RTI has been sought from Jan Suchna Adhikari- UP Medical Council.

- a) Are physiotherapists required to register themselves with **UP Medical Council** or the **Medical Council of India** before practicing?
- b) Which existing provision of law mandates such prior registration of physiotherapists prior to practicing professionally?
- c) Does such registration entitle physiotherapists to use the term "**Doctor**" as a prefix?
- d) Under law can a paramedical person like "**Bachelor of Physiotherapy**" and/or "**Master of Physiotherapy**" use the word "**Doctor**" before his/her name?
- e) Can a qualified Physiotherapist prescribe Allopathic medicine and Laboratory Tests, Radio Diagnostics / Ultra Scans? If yes, then to what extent?
- f) If a paramedical person like qualified **physiotherapist** uses prefix like "**Doctor**" can he/ she be prosecuted? If yes, then by whom?
